Email Psychic and Astrology Readings

Are you worried, confused, don't know what to do next? Or are you faced with a choice between two directions, decisions, or paths? Is a relationship or loved one causing you anxiety and confusion, are you waiting for the right person or wondering if you should leave? Are you having issues with career or health, or do you just want some spiritual insight and guidance along your life path?

I offer my psychic and astrology readings by email giving insight and guidance into love, life path, health, family, and career, but I am happy to answer questions about anything which is concerning you.

My psychic readings are very useful for solutions and advice in the short to medium term, while an astrology reading is perfect for when you want to get to the bottom of major life themes and issues. Unlike my psychic readings which are better suited questions about specific issues or problems, astrology shows the whole life and the whole person.

Astrology of Love & Relationships

Aries

Love Profile: Fiery and full of energy you attract a lot of people to your charisma. You need to keep control of your temper with loved ones though, as 'hot-headed' is a classic Aries trait and can push sensitive people away. You have a very tender side which is easily hurt, let others know occasionally that you are not as tough as you seem.

What You Need: Freedom to move at your own pace and to keep your independence within the relationship.

Best Matches: Leo and Sagittarius match you for enthusiasm and passion. Gemini, Libra and Aquarius will always keep you entertained and stimulated.

Taurus

Love Profile: Slow, caring and gentle, Taurus people rarely push themselves out into the world and can be overlooked in favour of more flashy people when they are young. Once in a settled relationship they begin to blossom and grow as they have a deeply loving and passionate nature underneath.

What You Need: Peace, harmony and security in your home and relationships is essential for Taurus people.

Best Matches: Virgo and Capricorn for stability and security. Cancer, Scorpio and Pisces for emotional depth and softness.

Gemini

Love Profile: The big communicators of the zodiac, Gemini people need to be mentally stimulated and amused if they are to stay interested and committed in the long term. With at least two sides to your personality you can't be with an old stick in the mud or else your eyes may wander.

What You Need: Someone with brains and interesting ideas. They have to be good at listening as well as talking.

Best Matches: Sagittarius and Aries share your love of stimulation. Libra and Aquarius give you freedom and new ideas.

Cancer

Love Profile: Very caring and nurturing, Cancer people love to create a loving home and 'mother' everyone – even if they are male. Emotionally sensitive, they can retreat into their crab shell if hurt, but if they feel safe they surround their partners with love and thrive themselves

What You Need: Home and family are very important, so a potential mate must be a good parent or at least love being a homebody.

Best Matches: Pisces and Scorpio for their emotional sensitivity. Taurus, Virgo and Capricorn bring stability and security.

Leo

Love Profile: Leo's are naturally glamorous and the centre of attention. You may find a quiet Leo occasionally, but even they show a different side with close friends and lovers. You are naturally generous and want to bring out the best in everyone – just be careful not to fall for a loser with potential.

What You Need: You have to feel as though you are the centre of your lovers' world, leave if it is less than that.

Best Matches: Aries and Sagittarius for the fire and passion they bring. Libra and Gemini will keep you interested and feeling good.

Virgo

Love Profile: Sometimes criticised for being too picky about relationships, you are actually just very careful about who you let close to you. You know what you want and are prepared to wait for it, just don't get bogged down in small details and miss the 'almost' perfect love standing in front of you.

What You Need: Order and knowing where you stand. You have a tendency to worry so clear communication is a must.

Best Matches: Taurus and Capricorn for the peace and quiet. Cancer and Pisces for the emotional soothing and calm.

Libra

Love Profile: Ruled by Venus, planet of love, you are the true romantics of the zodiac. Love poems, flowers and romantic gestures mean a lot to you, and you need to be treated like a lady. Librans can sometimes 'fall in love with love' so make sure you are seeing things clearly before you commit.

What You Need: Harmony and peace are very important. Conflict and harsh words will do serious harm, so avoid bullies and drama queens.

Best Matches: Taurus shares your love of harmony, Aries, Leo and Sagittarius bring excitement and glamour,

Scorpio

Love Profile: Deep, intense and passionate, Scorpio people do not give their hearts easily, but when they do the feelings can last a lifetime. Jealousy and control can be issues in your relationships, but once you feel trust you settle down. (Scorpio is known as the sexiest sign!)

What You Need: Someone who feels as deeply about love and relationships as you do. Avoid flirts and players – not worth taming.

Best Matches: Taurus, Capricorn and Virgo give you the security and depth you need. Pisces and Cancer get you emotionally.

Sagittarius

Love Profile: Naturally optimistic and fun to be around, Sagittarians are great at relationships, although they can often treat their partners like their best mates rather than lovers. You are known for being decent and playing fair in love and often stay friends with your ex years after the romance fizzles.

What You Need: You must have fairness and balance in your relationships as nothing kills your love more than injustice.

Best Matches: Gemini, Aquarius and Libra bring mental stimulation and freedom. Aries and Leo can match your fire.

Capricorn

Love Profile: Slow to get started, Capricorns are all about the long term. Although they can seem a bit cool and contained at the start, once a Capricorn feels secure within a relationship their playful side comes out and they become very passionate and loving.

What You Need: Commitment, honesty and a shared set of goals you can both work towards. Capricorns make great power couples!

Best Matches: Taurus and Virgo for their stability. Cancer, Scorpio and Pisces for emotional depth.

Aquarius

Love Profile: Eccentric and a bit of a rebel, Aquarian people tend to value freedom and unusual relationships more than serious commitment, especially when they are young. Often attracted to off-beat people and idealistic causes, your friends are very important to you and you often fall in love with them.

What You Need: Someone who shares your values and hopes for the future, and who also is your best friend.

Best Matches: Sagittarius and Gemini for the adventures and ideas. Aries, Libra and Leo for the excitement.

Pisces

Love Profile: Dreamy and spiritual, Pisces people can experience some of the highest peaks of love. Unfortunately it takes time and experience to learn how to love wisely rather than always falling for people who are no good for them. Very sensitive, they often know what their partner is thinking.

What You Need: Someone who can help you to keep your feet on the ground while still letting your inner spirit grow.

Best Matches: Cancer and Scorpio understand your emotional needs. Taurus, Virgo and Capricorn give you a stable base to grow from.
